# SERVICES

Behavior Health Responses Justice and Crisis Response Unit (J-CRU) provides a “cops and clinicians” model in which a trained J-CRU clinician partners with a St. Louis Metropolitan Police Department officer on calls related to behavioral health such as mental health, substance use, trauma, quality of life events, self-sufficiency incidents, and more.

Our J-CRU also teams with St. Louis City Justice Center where officer and clinician work together when an arrestee is detained. A clinician will assess their immediate needs to connect them with appropriate services upon their release.

Our clinical care coordination team follows up with all clients to assist in support and connect them with ongoing services.
